

DAVID METZLER

1336 Holly st. · 303-883-8312

David.m.metzler@gmail.com · davemetzler.github.io

My Objective is to move from my current position, which can be best be described as a job, to something more substantial that would give me the ability to express and challenge myself more completely in this industry; an opportunity to work in good faith.

MAY 2016 - PRESENT

GIST ANALYST II, BLACK HILLS ENERGY (LONG TERM CONTRACTOR FROM SUMMIT ENGINEERING)

Saw over the digitization of 15,000 documents to the GIS. Documentation of processes. Planning of new data implementation, Scripting and web GIS.

AUGUST 2013 – MAY 2016

GIS ANALYST, BLACK HILLS ENERGY (LONG TERM CONTRACTOR FROM HALKER CONSULTING)

This is admittedly confusing. My roll was the same however I did work for a different consulting company for most of the time. In addition to those tasks I also ran a couple of small GIS projects and all of the various things associated with those tasks.

JUNE 2009 – AUGUST 2013

GIS TECH, PETROLEUM FIELD SERVICED

My role here changed over time. I began as a field operator collecting GIS data in weld county. From there I moved into drafting documents for permitting. After that I move to more complicated tasks such as scripting, managing GIS data, planning databased and training on web tools I helped develop.

EDUCATION

JUNE 2010

B.A. (GEOGRAPHY), CU DENVER (GIS CERTIFICATE)
